

We are a principle funder and lend on residential property throughout England, Wales and Scotland. We offer regulated and non-regulated products to assist with purchases, refinances, capital raising for business purposes and for consolidation.

Our loan interest can either be serviced or rolled into the loan facility and some fees can be added to the loan in certain circumstances. We can assist clients with previous credit issues and like to understand the background to the application. We will base our lending on the value of the property.

We have assisted clients in the following scenarios;

- Bridging a purchase before sale
- Settling a tax liability
- Funding property refurbishments
- Increasing or refinancing property investment portfolio
